Last Updated Sunday, 20 May 2007

Here is Yuko. I would like to say my courses are done in a lively yet gentle atmosphere. I like to find the most comfortable pace for each person to progress, and go with it. It makes me smile when people say they might not be able to complete the course. Many people with fear for water have come to take courses, and turned out to be the best in water. Some have even become dive professionals.

And here is Gunnar. Apart from diving, I have a teaching degree in Sports and IT from Hamburg University in Germany and am certified by the Hamburg School Administration Board (Behörde für Bildung und Sport Hamburg). In the past 15 years I have taught children between 7 and 18 years of age. I am also a trained swim instructor, and have done lots of swimming lessons with kids as well as adults.
